PROFILE

Senior UX Designer with 4+ years building enterprise B2B and B2C products. Deep specialist in OOUX - defining scalable object models before a single screen is drawn. Fluent in AI-driven design and vibe coding (Cursor, Claude, Lovable, Bolt). Built and published a live NPM design system adopted across IndiGo and all vendors.

IMPACT

SKILLS

UX Design

[OOUX/ORCA] [User Research] [Wireframing] [Prototyping] [Design Systems] [UX Audits] [Journey Mapping] [Usability Testing] [Accessibility] [Stakeholder Mgmt]

AI & Vibe Coding

[Cursor] [Claude] [Lovable] [Bolt] [v0] [Figma AI Agents] [Figma Make] [Design Automation]

Design Systems

[NPM Component Library] [Design Tokens] [Token Architecture] [Multi-product Adoption]

Collaboration

[JIRA] [Confluence] [Notion] [Trello]

EDUCATION

BBA - Business Administration

Rawal Institute of Management, Faridabad
MDU (Maharshi Dayanand University)

WORK EXPERIENCE

Senior UX Designer

Sep 2025 - Present

IndiGo | Led multiple projects across product verticals

- **Led end-to-end UX for B2B Access** - IndiGo's B2B flight booking agent for travel agents, covering the full flow from flight search and enquiry creation through client management and quotation generation.
- **Applied OOUX/ORCA methodology** to architect the complete object model - 6 core objects (Agent, Flight, Enquiry, Client, Quotation, Flight Search), full relation matrix, attribute taxonomy, CTA inventory and screenful mapping before any screen was drawn.
- **Built and published the IndiGo NPM Design System** - full component library with design tokens, adopted internally and across all IndiGo vendor products, creating a single source of truth for UI across the ecosystem.
- **Ran a 3-Level UX Audit** (Surface, Behavioural, Structural/OOUX) across product flows - using the Four Horsemen of OOUX as structural diagnostic lenses to identify and resolve broken, isolated, masked and shape-shifting object patterns.
- **Drove design and development automation** using AI tools (Cursor, Claude, Lovable, Bolt) - significantly reducing QA cycles and front-end developer effort by automating repetitive UI implementation tasks.
- **Managed stakeholders** across engineering, product and business teams - translating complex UX decisions into clear rationale for non-design audiences and aligning cross-functional teams.

Senior Associate - UI/UX Designer

Nov 2023 - Sep 2025

Stylework Innovation Hub Pvt. Ltd.

- **Redesigned mobile app homepage** - prioritised core offerings, increasing engagement by 45% and reducing abandonment by 30%.
- **Led UX across multiple B2B platform projects** for enterprise accounts - driving platform refinements based on admin and user feedback, boosting overall platform utilisation by 55%.
- **Applied OOUX methodology** to create scalable design architectures that preserved object relationships as features expanded.
- **Managed stakeholders** across client teams and internal product - ran workshops, UX audits and alignment sessions to surface friction and build shared understanding of design decisions.

UI/UX Designer

May 2022 - Nov 2023

RARR Technologies Pvt. Ltd.

- **Architected dual-sided recruitment ecosystem** - integrated B2B/B2C platforms that cut hiring time by 30% and eliminated 15+ hours of weekly manual work.
- **Built real-time application tracking system** reducing HR inbox volume by 65% and improving candidate satisfaction by 40%.
- **Conducted user research** across 8 recruiting teams, redesigning workflows that improved efficiency by 35%.
- **Delivered high-fidelity prototypes** achieving 92% positive scores in structured usability testing.

INTERESTS

Travel

Exploring new places and cultures - a constant source of design inspiration, observing how people navigate unfamiliar systems.

Adventure

Done rafting and bungee jumping - now planning skydiving and paragliding. Thrives on pushing limits and stepping into the unknown.

Sports

Table tennis, badminton, basketball and volleyball - team sports that sharpen quick thinking and coordination under pressure.

DESIGN PHILOSOPHY

"Design is a system before it is a screen. Every interface is built on invisible object relationships - get those right and the UI almost draws itself. AI amplifies speed; rigour gives it direction."

FEATURED PROJECTS

IndiGo NPM Design System 2025 - IndiGo

Built and published a full NPM package - component library + design tokens - adopted across IndiGo's internal products and all vendor surfaces. Established a single source of truth for UI across the entire product ecosystem, eliminating design drift between internal teams and third-party vendors.

B2B Access - OOUX Architecture & UX Audit 2025 - IndiGo

Mapped the complete ORCA model for IndiGo's B2B travel agent platform - 6 objects, full relation matrix, CTA inventory, attribute taxonomy and screenful mapping. Layered a 3-Level UX Audit (Surface, Behavioural, Structural) using the Four Horsemen of OOUX as diagnostic lenses to identify and fix structural UX failures.

AI-Powered Recruitment Platform (B2B/B2C) 2022-23 - RARR Technologies

End-to-end design of an integrated hiring ecosystem for employers and candidates - cutting time-to-hire by 30% and achieving 92% usability test approval.
